

SCC Midwest TeamWorks 2008: Call for Papers

DEADLINE—FEB. 1, 2008

TeamWorks, to be hosted March 26, 2008, by the Midwest SCC chapter, announces its call for papers.

Suppliers—expose your latest and greatest technologies to a capacity crowd of formulating chemists during this half-day conference, preceding the TeamWorks exhibition, at the Donald E. Stephens Convention Center in Rosemont, Ill., USA. You'll already be there to exhibit*, so why not "strut your stuff" on stage?

Submissions should highlight a new technology, concept or method. Trade names may be used so long as the chemical or INCI name is also included. Speakers will be allowed 20-30 min. to present, followed by a brief question/answer session. Send in your submission **no later than Feb. 1, 2008**; submissions should include: the company's and speaker's complete contact information, a photo and short bio of the speaker, and the Powerpoint presentation and/or a Word document of the presentation.

All entries will be reviewed by a panel of 6 members from various companies at different levels, and judged for their uniqueness, claims support and applicability. A final 6 papers will be selected to be presented on stage during the education session.

Please send your submission to:

Gene Frank, TeamWorks Education Chair
